

# Woodlea Front Garden Packages

# Selecting your front garden package

To welcome our residents in style, each home purchased includes a complementary front garden package in the contract.

2

Three wonderful garden palettes are yours for the choosing, ranging from:

- 1 Contemporary**
- 2 Classic**
- 3 Woodland**

Select the front garden package that best suits you, and help create a visually consistent streetscape you can be proud of.

Simon Smith, Director of MDG Landscape Architects has used the existing and striking natural surrounds of Woodlea to inspire the design and arrangement of individual neighbourhoods and public spaces.

# Front garden process

We want to make sure that choosing your front garden package is a carefree and exciting one, so we've made a few simple steps to ensure you get the front garden that complements your new home at Woodlea.

## 1

**Submit images to Home Inspection Team**

Once your home is complete and you have received your Certificate of Occupancy, you will receive an email containing an online form. Please include images of your fence/gate, driveway, letter box & front facade to demonstrate completion.

## 2

**Site inspection**

Your home will then be reviewed by the home inspection team to ensure it complies with your approved plans as well as Woodlea's design guidelines

**3**

## 3

**Submit front garden selection**

Once your home is approved an email with an online form will be sent to select your preferred front garden package.

## 4

**Your front garden is complete & gardening guide provided**

Our team of landscaping experts will install your brand new front garden package within 1-4 weeks (of your front garden selection) and provide you with gardening information to assist you with maintaining your garden.

## 5

**Welcome gift**

Celebrate the final finishes on your garden with a surprise welcome gift on us!

# 1 Contemporary

## Typical contemporary tree

Dwarf Red Flowering Gum

Crabapple

Silver Princess

Kanooka

## Typical classic tree

Pyrus Betulaev 'Southworth'

Magnolia Little Gem

## Typical woodland tree

Harkness Bottlebrush

Crepe Myrtle

Burgundy Willow Myrtle

Silver Banksia

# FAQS

## Where can I send my Certificate of Occupancy?

As you progress through your build journey, our team will email you a link to book final inspection of your new home. You will be asked to upload a copy of your certificate of occupancy, along with images of your fence/gate, driveway, letter box and front façade. Once your home is assessed and compliant with estate guidelines, our team will book your front garden package in. You can also visit <https://woodlea.com.au/building-at-woodlea/home-design-hub/> for more information on the process.

## When will Woodlea deliver my front garden?

Once our home inspection team have confirmed that your home has been built to the approved plans, it is anticipated front gardens will be delivered within 1-4 weeks. Timeframes will be subject to prevailing seasonal conditions and contractor availability.

## Does our boundary fencing need to be installed?

Yes, we require your boundary fencing to be installed prior to your site inspection and commencement of front garden works. Please ensure your fencing meets the Woodlea Design Guidelines requirements.

## Does our driveway need to be installed?

Yes, your driveway is required to be installed and inspected by our site inspection team prior to any works commencing. Please ensure your contractor has installed the 90mm PVC pipe underneath your driveway as per the Woodlea Design Guidelines. This is required for your front garden irrigation system.

## Can we vary or change our front garden packages?

No, the packages cannot be varied. However our new residents are most welcome to add their own touch to their front gardens after landscape are complete.

## Am I allowed synthetic turf?

No, fake/artificial turf is not compliant with estate design guidelines.

## Does our letterbox need to be installed?

Yes, we require your letterbox to be installed and inspected by our home inspection team prior to commencement of front garden works. Please ensure your letterbox meets the Woodlea Design Guidelines requirements.

## How high do the trees grow?

Depending on the species and site conditions trees grow from 2-5m in height.

## Do I need a retaining wall?

Depending on the difference between the floor level of your home and the adjacent street a retaining wall may be required to create a level platform around your lot. If this is the case the location, height and materiality will need to be submitted to our site review team as part of your building submission. If the retaining wall is required to extend into the front yard this will need to be installed prior to the delivery of a Woodlea Front Garden Package. Please note that the Woodlea Front Garden Package does not include the construction of a retaining wall and if it is not installed, a best fit scenario will be achieved or works will have to be delayed until any level issues are resolved which will require the submission of a plan to our plan review team for review and approval. Typical grades should not exceed 1:30 [3%] for a path, 1:8 [12%] for grass and garden beds 1:4 [25%].

## Why does my block width and house setback need to be provided?

The block width and house setback needs to be provided so the contractors can provide you with a package that meets the Woodlea design guidelines. It is important that the permeable/impermeable areas are met once driveways are installed. What this means is that when a lot is greater than 18m in width a path to the front porch will be included, when a block is less than 18m in width a path will not be included.
